

CAUTION: Browntail Moth

" I usually spend my time eating Oak tree foliage & will soon pupate in early July. This will cause my hairs to fall down into the grass below. "

two
red
dots
means
STOP

" The tiny hairs on my body may cause a poison ivy-like rash or respiratory problems! "

**DO
NOT
TOUCH**

" We are sorry to bother your play activities. Stay safe & don't touch me. "

For more info on Browntail Moths scan the QR code or visit the Maine Forest Service website.
