

Maine Center for Disease Control and Prevention
Monthly STD/HIV Data Update
Cases diagnosed from January 1 to February 28, 2006

This Update is prepared each month to provide summary year-to-date (YTD) data about HIV and STD in Maine. For each disease, the YTD total is shown and compared to the average YTD total for the past five years. Please note that totals presented here may change because of reporting delays or pending epidemiologic investigations. For additional data, analysis and reports, please visit our website: http://www.maine.gov/dhhs/boh/ddc/data_statistics_surveillance.htm

For more information, contact Mark Griswold at (207) 287-5193 or mark.griswold@maine.gov.
