*** Data Source: 2017-18 Maine School Age Immunization Assessment Survey

Regarding the Kindergarten Cohort:

• Vaccine rates decreased for all individual antigens.

• Exemption rates increased for each individual type of exemption .

• Total exemption rate increased from 5.0% to 5.3%.

• The percentage of missing immunizations increased from 1.1% to 1.4%.

Regarding 7th Grade Students:

One dose of Tdap became a requirement for 7th grade students for the 2017-18 school year. This is the first year reporting on this requirement.

Exemption rates increased for each individual type of exemption.
 Total exemption rate increased from 2.3% to 4.6%.

The percentage of missing immunizations increased from 0.3% to 2.4%

For all cohorts:

• The Varicella rate now includes children that have had at least one dose of varicella and children that have a history of disease. Both are considered up-to-date based on CDC guidelines.

• A second Varicella dose is not a requirement for Maine schools and some schools have no ability to track/report this for survey purposes.
