

Fly

A bird can **fly**! It moves through the air with wings.

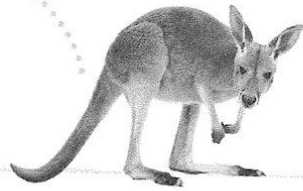

Glide

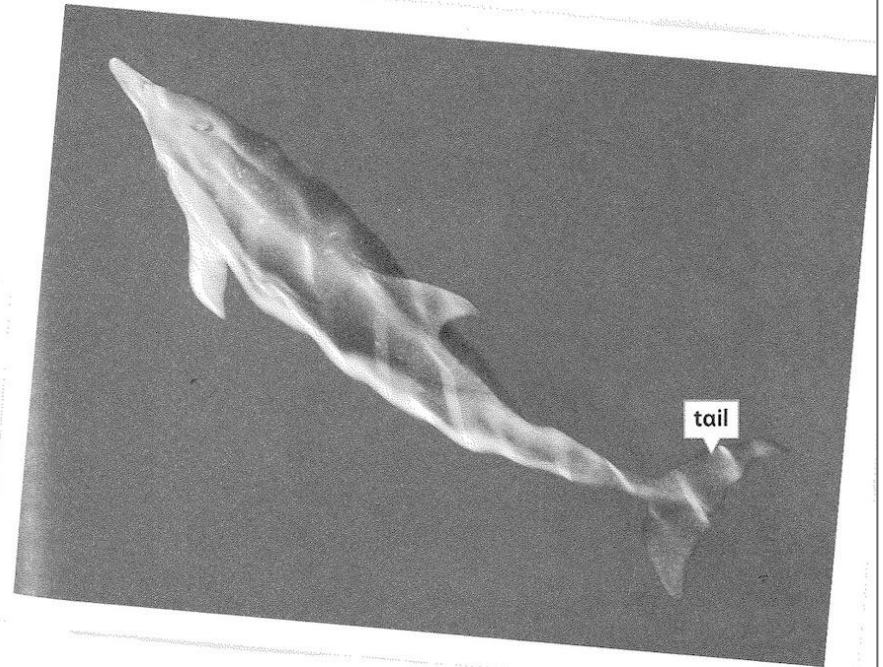

A bat can glide! It flies smoothly through the air. A bat's wings are really long fingers covered with skin.

Hop

A kangaroo can hop! It makes short leaps into the air. It uses its **back** feet to hop.

Swim

A dolphin can **swim**! It moves gently through the water. A dolphin swims by moving its tail up and down.
