COMMISSIONER

March 22, 2024

Derek Perkins  
Superintendent  
Surry Public Schools  
PO Box 630  
Blue Hill, ME 04614

Dear Superintendent Perkins:

The Surry Public Schools Nutrition Program was reviewed per Federal Regulation 7CFR 210.18 and Maine Department of Education Child Nutrition policies and procedures. On February 15, 2024 Stephanie Stambach reviewed Surry Elementary School. An exit conference with you occurred on February 15, 2024.

The enclosed Official Notification of Review Findings and Corrective Action describes the corrective action documentation required. Please submit a detailed response for each of the review findings listed in the report by the deadline(s) listed. Responses must be submitted through CNPweb, Maine Department of Education Child Nutrition's Administrative Review software, and must address the following:

- How the finding was corrected (include who, when & how)
- Documentation that the finding has been corrected district-wide
- How this action will ensure future compliance

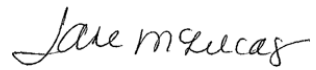

In accordance with §210.18(k), failure to return completed documentation within 30 days from the corrective action deadline date will result in the withholding of reimbursement payments. We hope that following the exit conference you and your staff addressed the corrective actions and that you will have no problems in meeting the response deadline.

The Official Notification also provides the potential fiscal action, which is an initial estimate of the amount of reimbursement that will be reclaimed. These are only estimates which must be adjusted to the actual date of corrective action for each violation. If documentation of corrective action or acceptable corrective action is not received by the response date stated above, the claim will be recalculated to the end of the school year.

Local Education Agencies have the right to appeal findings which impact their reimbursement. For more information visit <https://www.maine.gov/doe/sites/maine.gov.doefiles/inline-files/Child%20Nutrition%20Appeals%20Process.pdf>

We hope that this review has been helpful to you and your staff. If you should have any questions, or if we can assist in any way, please feel free to contact Stephanie Stambach at 215-9437 or email [stephanie.stambach@maine.gov](mailto:stephanie.stambach@maine.gov).

Sincerely,

A handwritten signature in cursive script that reads "Jane McLucas".

Jane McLucas  
Child Nutrition Director

Date of on-site review: February 15, 2024

Introduction

- \* Thank you to Michelle Snowden and Katrina Willette for assisting with the Surry Public Schools administrative review. We appreciated the time and assistance provided by the staff. Michelle is new to her role in the school nutrition program for School Union 93 and was quick to make any changes needed. Katrina and her assistant interacted positively with the students and worked well together in the kitchen. Michelle and Katrina both share food service director duties in the program.
\* School Union 93 consists of five towns and five different head cooks. To assist with meeting professional standards hours and resource sharing, it was recommended that in-service/workshop days be provided to the school nutrition staff. This could involve menu and recipe sharing, reviewing production records, and discussing best practices/challenges.
\* Katrina keeps very thorough production records and detailed paperwork. Keep up the good work!

Technical Assistance

- \* It was recommended that Offer vs. Serve (OVS) be used to save on food waste and food cost. Currently, students must take all food items offered for breakfast. The school has a share table that is being utilized; however additional steps to reduce food waste such as implementing OVS would be beneficial.
\* The school has prioritized using fresh produce in the school nutrition program. The DoD Fresh program was discussed on the day of review, as USDA entitlement dollars can be used towards fresh produce. This would save the school money as it is not coming out of the food service budget, while still meeting the goals of offering more fresh product.
\*Almond milk was used as a milk substitute for a student. This is an unallowable milk substitute as it does not have the same nutrient profile as cow's milk. A medical statement is needed for students with a food allergy and must include foods to omit and foods to substitute so kitchen staff know how to accommodate.
\* The adult meal price is \$5.00. Based on the SY 2023 annual financial report in CNP web, the average lunch per meal cost was \$7.08. This includes food, labor and other costs. The district should investigate what is causing the per meal cost to be high and increase the adult meal price as needed. Any amount that is not covered will need to come from another funding source, and the school nutrition program cannot absorb the cost. Steps to reduce overall food cost should be taken, including inventory control, and using USDA foods entitlement.
\* At the time of the review civil rights training hadn't been completed; however, was completed prior to the on-site review. Annual civil rights training must be completed by any staff with responsibilities in the school nutrition program.

General Program Compliance - Surry Public Schools (462)

1007. On-site observation validate Off-Site Assessment Tool responses to Local School Wellness Policy questions?

Finding 1: Triennial assessment of local wellness policy not completed.

The wellness policy must be assessed every three years and is a federal requirement. A sample assessment tool can be found on the Child Nutrition website: https://www.maine.gov/doe/schools/nutrition/programs/nslp.

Corrective Action:

Complete assessment and upload results to CNP web- E Reviews- Corrective Action Responses.

Corrective Action Deadline: April 26, 2024

Meal Counting & Claiming - Surry Elementary School (463)

318. DOR - accurate meal counts by category at POS? Enter data.

**Finding 2: Pre-K meals are not counted at the point of service**

Based on federal regulations, meal counts must be counted at the point of service, or when the student receives a meal. It was found that lunch counts were being completed for Pre-K before students received a meal.

One option discussed was the Pre-K staff can highlight or put a check mark next to the student's name when the student receives the meal. The sheet would then be returned to the kitchen to be added to the meal count.

**Corrective Action:**

Develop and implement an allowable meal counting procedure for the Pre-K classroom. Upload response to CNP web- E Reviews- Corrective Action Responses.

**Corrective Action Deadline: April 26, 2024**

322. Days when F/R/P meal counts exceed number of eligibles? Enter data.

**Finding 3: Meal counts by day are not being recorded and compared to edit checks**

Daily meal count records are needed to ensure there are appropriate edit checks, and meal counts are not exceeding enrollment. Currently, meal counts are recorded by the week and sent to the central office.

There is a "Daily Edit Check" template on the Child Nutrition website that can be used for meal counts:

<https://www.maine.gov/doe/schools/nutrition/programs/nslp>. With Surry being Special Provision 2, non-base year, total counts can be entered in the "paid" category and compared to enrollment and the attendance factor.

**Corrective Action:**

Adopt meal count form that will be used to ensure daily meal counts are being recorded and edit checks are in place. Upload to CNP web- E Reviews- Corrective Action Responses.

**Corrective Action Deadline: April 26, 2024**

Meal Components & Quantities - Surry Elementary School (463)

409. Review period production records/documentation - required meal components offered, daily/weekly requirements met? Enter data.

**Finding 4: Review Period: Breakfast and lunch meal pattern errors found**

One week of menus and production records were reviewed for breakfast and lunch in January 2024. The following meal pattern errors were found:

**SNP Administrative Review Findings**  
*Program Year 2024*

**Surry Public Schools (462)**

Breakfast:

- Multiple non-whole grain rich items were offered, including bread, English muffins and muffin mix. This led to not meeting the 80% weekly whole grain offering.
- Insufficient fruit offered x 5 days

Lunch:

- Multiple non-whole grain rich items offered, including egg noodles, bread sticks, tortillas, and rice.
- Insufficient daily vegetable x 4 days
- Insufficient weekly vegetable subgroups: red/orange and legumes.

**Corrective Action:**

Upload breakfast and lunch production records for March 4-8, 2024, to CNP web- E Reviews- Corrective Action Responses.

**Corrective Action Deadline: N/A; information has already been received.**

**Technical Assistance:**

Extensive technical assistance was provided on-site on how to read ingredients labels to determine if a grain item meets whole grain rich criteria. The importance of purchasing Child Nutrition (CN) labeled items, and other products that have the meal pattern contribution was also discussed, as well as working with distributors to find compliant products.

Sincerely,

Stephanie Stambach MS, RD, SNS
