Re: **Supplement to Notice of Data Security Incident**

Dear Attorney General Frey:

We represent Acuity International, a provider of professional services, specialized consulting, engineering, medical, and environmental solutions, and large-scale program management services for the U.S. government and commercial clients in the national defense, healthcare, international diplomacy, and homeland security markets. Acuity International is headquartered in Reston, Virginia with personnel in 30 countries across five continents. This letter is being sent pursuant to 10 Me. Rev. Stat. Ann. §§ 1346-1350B, because the personal information of Maine residents may have been affected by a recent data security incident. This letter is being sent to supplement the notice provided by Acuity's subsidiary, Comprehensive Health Services ("CHS") on February 15, 2022 and March 14, 2022, because an additional 77 Maine residents were notified on May 12, 2022. In total, the personal information of 679 Maine residents may have been affected by this incident. The incident may have included unauthorized access to personal information such as names and Social Security numbers.

On September 30, 2020, Acuity detected unusual activity within its digital environment following discovery of multiple fraudulent wire transfers. Upon discovering this activity, Acuity immediately engaged a team of cybersecurity experts to secure the digital environment and conduct a forensic investigation to determine the method of initial compromise and access, the scope of the incident, what systems were impacted and whether any personal information may have been accessed or exfiltrated as a result of the incident. Following review and analysis of the information impacted by the incident, and as a result of the investigation, Acuity determined on April 4, 2022, that personal information of a limited number of individuals employed by one of its subsidiaries may have been accessed or acquired by a malicious actor.

On February 15, 2022, and March 14, 2022, Acuity's subsidiary, CHS, notified the affected Maine residents via the attached sample letter. On May 12, 2022, Acuity notified an additional 77 Maine residents and is offering **twelve (12)** months of credit monitoring and identity protection services through Epiq. Acuity has also taken measures to enhance the security of its network to minimize the likelihood that an event like this might occur again in the future.

Please contact me at Lauren.Godfrey@lewisbrisbois.com should you have any questions.

Sincerely,

Lauren D. Godfrey
