Re: Notice of Data Breach

Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

I am writing to inform you about a recent IT incident at BBC Industries, Inc. that may affect the security of your personal information. We take this incident and all information security issues very seriously and as such, we are providing you with information and access to resources so that should you feel it is appropriate to do so, you can help protect your personal information. In the course of its business operations, BBC Industries, Inc. at times receives certain personal information. You are receiving this notice because some of your personal information was exposed as a result of unauthorized access to an email account.

What Happened? On or about August 18, 2020, an unauthorized third person gained access to one email account at BBC Industries, Inc. Upon discovery, we took immediate action to shut down the unauthorized access and remediate the issue. We then brought in IT security and forensics experts to conduct a detailed systemwide review, which included an extensive inspection of information stored in the email account that was accessed. Although it cannot be determined whether the unauthorized person removed any information from the email account, we are providing this notice to you out of an abundance of caution so that you may take further steps if you choose to do so.

What Information Was Involved? The data that was subject to unauthorized access varied in individual cases, however, in your case it contained <<b2b_text_1(LossTypes)>>. To date, we have received no indication that anyone's sensitive information has been misused as a result of this incident whatsoever.

What Are We Doing? We take the security of sensitive information that we receive very seriously. Immediate actions were taken to secure our email system and ensure that any further suspicious activity was prevented. This included a systemwide email password reset and implementation of other security measures. Further, we engaged independent third-party IT forensic experts to conduct an exhaustive investigation of this matter, including a review of the contents of the compromised email box. The forensics experts determined that the incident was remediated and that there was no indication of additional compromise to our email system. In addition to providing notice to you, BBC Industries, Inc. is also providing notice to state regulators as required.

We also want to make sure you have the information you need so that you can take steps to help protect yourself from the potential of identity theft. We encourage you to remain vigilant and to regularly review and monitor relevant account statements and credit reports and report suspected incidents of identity theft to local law enforcement, your state's Attorney General, or the Federal Trade Commission (the "FTC"). We have included more information on these steps in this letter.

In addition, to help relieve concerns and restore confidence following this incident, we have secured the services of Kroll to provide identity monitoring **at no cost to you for two years**. It is essential that each copy be legible, and display your name, current mailing address, and the date of issue.
