Re: Notice of Data Breach

Dear Sample A Sample:

[EXTRA3] d/b/a [EXTRA4] (hereinafter “[EXTRA4]” or “Practice”) is writing to notify you of an incident that may affect the security of some of your personal information. The Practice is advising you of its investigation and the steps it has taken in response to the incident. The Practice is also providing you with steps you can take to help protect your personal information should you feel it is appropriate to do so.

What Happened? On October 11, 2020, [EXTRA4] became aware of suspicious activity in its environment and immediately initiated an investigation into the incident. As part of the investigation, which is being conducted with the assistance of third-party forensic specialists, it was determined that unauthorized individuals accessed certain files on the Practice’s network between September 18, 2020 and October 13, 2020. Therefore, with the assistance of our third-party specialists, we conducted a review of the files at risk to identify any individuals whose sensitive information could be impacted. Through the review, [EXTRA4] determined that information related to you was contained in the files. Although there is no specific evidence that your information was actually viewed by the unauthorized individuals, and we have seen no evidence to date that any data has been used for malicious purposes, we are providing this notice to you in an abundance of caution.

What Information Was Involved? The information that was potentially subject to unauthorized access includes your name, address, dental diagnosis and treatment information, patient account number, billing information, dentist’s name, bank account number, and health insurance information.

What We Are Doing. The Practice takes the security of personal information in our care very seriously. You are being notified because your personal information may have been subject to unauthorized access. This does not mean you are a victim of identity theft. As part of our ongoing commitment to the protection of information in our care, we worked with third-party specialists to reaffirm the security of our systems and to enhance the existing measures we have in place. We have already taken and will continue to take steps to help reduce the likelihood of a similar situation in the future, including enhanced employee training, mandatory password changes, and systems upgrades. We also notified the United States Department of Health and Human Services and state regulators, as required.

What You Can Do. As a best practice, you should always review your account statements for suspicious or unauthorized activity and report any instances of fraud to law enforcement. We also encourage you to review the enclosed *Steps You Can Take to Protect Against Identity Theft and Fraud*. There you will find general information on what you can do to help protect your personal information.

Steps You Can Take to Help Protect Against Identity Theft and Fraud

Monitor Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your credit reports for suspicious activity. Under U.S. law you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

Allen, TX 75013

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, military identification, etc.);
7. If you are a victim of identity theft, include a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

As an alternative to a security freeze, you have the right to place an initial or extended “fraud alert” on your file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the agencies listed below:
